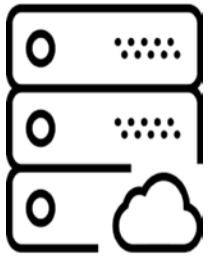
Enhancements & New Functionality

FlyBuys™ Rewards Issuance & Acceptance

- CSRs now have the ability to issue FlyBuys from directly within the TAS platform – a great time savings

Hangar Management Tool

- Idea came directly from 2017 World Fuel Software Users Conference
- Provides ability to assign and track aircraft locations from within the TAS software



Disaster Recovery Initiative

- Ground up creation of database log shipping which ensures complete data redundancy in the event of a disaster scenario
- Will continue to test annually to ensure scalability as the software base grows

Contract Fuel Enhancements

World Fuel Contract Fuel Release Integration

- Fuel Release Integration allows for additional ways to process World Fuel Contract Fuel
- World Fuel issued Fuel Releases will now display on a real time basis
- Available for all Total Aviation Software locations processing World Fuel Contract Fuel

World Fuel Contract Fuel Secondary Card Capture

- FBOs that host other contract fuel providers through the World Fuel Contract Fuel program can now capture that Contract Fuel provider’s proprietary card number
- FBOs that partner with World to process government contract fuel can now capture the Government Air Card number
